F

## Foundation Tier <br> Paper 2 Calculator

Thursday 8 November 2018 Morning
Time allowed: 1 hour 30 minutes

## Materials

For this paper you must have:

- a calculator
- mathematical instruments.

## Instructions

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.

## Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 80 .
- You may ask for more answer paper, graph paper and tracing paper. These must be tagged securely to this answer book.

## Advice

In all calculations, show clearly how you work out your answer.

## How the Past Papers work

Every past paper question has a corresponding webpage that has the mark scheme and worked solutions for that particular question. There are also helpful links to content for the concepts used to answer the question, quizzes that you can use to try some of the concepts and similar past paper questions. An example of a webpage for a question is given below:

## How to get to the webpage

Every past paper question has a QR code next to it, such as:

```
15 Three solid shapes A, B and C are similar.
    The surface area of shape A}\mathrm{ is 4cm
    The surface area of shape B}\mathrm{ is }25\mp@subsup{\textrm{cm}}{}{2
    The ratio of the volume of shape B to the volume of shape C is 27:64
Work out the ratio of the height of shape \(\mathbf{A}\) to the height of shape \(\mathbf{C}\).
Give your answer in its simplest form.
```

You can get to the corresponding webpage in 3 different ways:

1) Scanning the QR code with the camera on a smart phone or tablet.
2) Typing the code that is underneath the QR code at the end of www.elevise.co.uk/. For this question, the code is AP15A, so you would type www.elevise.co.uk/AP15A into the address bar to obtain the webpage. If you would like to see the question rather than the answers, you change the A at the end of the code to a Q; you would type www.elevise.co.uk/AP15Q
3) Clicking on the QR code if you are viewing the past paper as a PDF or on a web browser.

13 A charity sends an appeal letter to 3000 people.
The letter asks for a donation of money.
Here is some information about the last appeal letter the charity sent out.
$\frac{1}{2}$ of the people who were sent the letter made a donation.
The average donation was $£ 8.60$
$\frac{1}{3}$ of the people who made a donation filled in a tax form.
